

## **BSC International Diploma In Occupational Safety & Health (iDipOSH) iDipOSH: ASHEI**

**ASHEI** is accredited to BSC for Level 3 & 6 courses. This course is designed for managers and practitioners with specific responsibility for health and safety in the workplace. The Level 6 Diploma in Occupational Safety and Health is a professional qualification recognised nationally. The course covers risk management, health and safety culture and occupational health. It is recommended that delegates have either a level 3 certificate in occupational safety and health, an alternative appropriate qualification in a related sector, or appropriate experience in a health and safety role.

On successful completion of two written examinations and two workplace-based assignments, delegates can access graduate membership of the Institution of Occupational Safety and Health (GRAD IOSH) - a nationally recognised and respected independent industry body. Following the successful completion of a period of initial professional development, a graduate member may apply for chartered status of IOSH (CMIOSH). Holders of the Level 6 Diploma may also apply for full membership of the International Institute of Risk and Safety Management (IIRSM).
