## International Diploma in Occupational Safety & Health

British Safety Council have been a trusted leader in health, safety and environmental management. They have educated millions of workers and made hundreds of thousands of workplaces healthier and safer for everyone. British Safety Council do this by sharing information, supporting organisations as they change, advising, educating and campaigning for effective legislation.

Workplace there are multiple hazards and can harm workers, the broader environment or both, requiring different levels of risk management. They help you to reduce risks sensibly, making workplaces healthier and safer for everyone and improving long-term business performance. British Safety Council has changed the world of work for the better and we'll never stop, because excellent health, safety and environmental management is good for your people and good for your business.

The International Diploma focuses on embedding health and safety into an organisation's culture and highlights the key role of communication in securing senior management commitment.
